

## Love of Reading

Teachers read to children every single day.

We purchase the pink loan boxes and sign up to the 'Gold' library service in order to have the most inspiring books and texts for all children.

We select books that are relevant and that relate to the topics and the children's interests.

Our story times are engaging and we invite the parents in, to be a part of this so that stories carry on being read at home. We further make reading engaging through the use of different media; story books, audio books.

We select books for children that are also classic and traditional, this gives children a range of genres to learn and to gain the rich language from.
