

Phonics from the start

Children start to learn phonics from the very first day

There are 44 phonemes altogether;

Phase 2 – 23 sounds

Phase 3 – 26 sounds

Phase 4 – no new sounds

Phase 5 – 19 alternative sounds

We have achieved 100% of our children to reach the Expected Standard for Reading at the end of KS2. Our phonic scores are lower than average due to English being a second language for many of our youngest children. The KS2 result shows that the interventions, support, grouping and resources clearly have an impact on the children from year 2 and beyond.
