

Early Reading Experts

Staff have worked alongside an early reading expert within the Trust, who has visited our school and looked at the provision and support we offer children. This ensures the skills and knowledge of staff are developed.

Regular observations take place as well as 'drop in' monitoring.

What additional training have staff had?

We ensure that the lowest 20% of our readers are having the very best interventions. They work with the high qualified staff to ensure a rapid and sustained improvement.

There is a tangible feel for reading around our school; all classrooms have a reading display or a reading area, the library has a great range of books, all classrooms have the Accelerated Reading scores displayed, there are inspirational quotes painted about reading for all children to see, the cloakroom has a reading-themed display and decoration based on a book the children love, there is a 'Once Upon A Time' display outside the youngest children's classroom, we celebrate World Book Day every year and have visited an author, which inspired and motivated our children to read and we have presented the children with reading challenges over school holidays.
